PROJECTS

01/2021 – CURRENT

EU Horizon 2020 AGRIMED - "Agri-weather data sharing for digital twin services to improve smart farming efficiency and sustainability in Mediterranean case studies"

<https://i4trust.org/about/>

Open Impact is member of the Italian consortium for the piloting phase of the project, promoted by the I4Trust consortium within the context of Horizon 2020.

The project aims:

- to create a data exchange network (Data Space) applied to the world of Agriculture 4.0 that allows Smart Agriculture technologies to interact with Sustainability Assessment and Valorization services.
- to access the agro-meteo data and predictive models (DSS) of pest risk management for farmers;
- to improve data analysis models;
- to decrease minimum service cost;
- to turn information into values and elaborate the data into value-added information on the sustainability of local farming.
