

Irene Gabutti

I am a post-doctoral researcher and professor in healthcare management. My research interests cover new organizational models to provide patient-centered care and emerging professional roles and competencies in the healthcare sector. I have studied organizational response models of healthcare systems to the current COVID-19 pandemic. I teach in undergraduate, graduate, and post-graduate courses in the departments of management and of medicine, both in traditional and blended classrooms. I have published in peer-reviewed top journals and have presented my work in various international conferences. I have successfully applied for various research grants, including projects financed by the European Commission.
