

VINCENT MARTINEZ holds a MSc on Mathematical and Statistical Modeling, from INSA Toulouse, France.

He has been working at Freescale / NXP semiconductors since 2006. He is currently a Senior Principal System Engineer, and a V2X expert & company delegate and rapporteur at various standards and industry consortiums. He has 15+ years of experience in research & development of wireless communication systems, deep knowledge of many wireless standards (4G LTE, 4G LTE-V2X, 5G NR V2X, WiFi IEEE 802.11p/bd, Bluetooth Low Energy, UWB), in particular on physical layers. He has a strong theoretical and practical background on communication theory, and is an algorithms & signal processing expert. He holds more than 25 granted patents.
