Summary of CV

This section describes briefly a summary of your career in science, academic and research; the main scientific and technological achievements and goals in your line of research in the medium -and long- term. It also includes other important aspects or peculiarities.

Degree in Veterinary Medicine (1994) and PhD, also in Veterinary Medicine (2001) in the Universities of Córdoba and Las Palmas de Gran Canaria, respectively. I have collaborated in 7 research projects, one of them performed in Cuba (Universidad Agraria de la Habana). I have published 57 articles indexed in JCR, many of them in Q1 Journals, most of them as main coauthor. I have presented more than 90 communications to national and international meetings and I have written 5 books and book chapters. I have been reviewer of many articles, from different journals, all of them indexed in the field of veterinary sciences (PlosOne, Equine Veterinary Journal, The Veterinary Journal..). I am associated editor of the BMC Veterinary Journal and Animals Journal, Q1. I have been always involved in the objective assessment of lameness in horses and dogs and, since 2013, in the use of regenerative -reparative medicine, as Mesenchymal stem cells and Platelet-rich Plasma derivatives. Thus, I always had a homogenous line of research

General quality indicators of scientific research

This section describes briefly the main quality indicators of scientific production (periods of research activity, experience in supervising doctoral theses, total citations, articles in journals of the first quartile, H index...). It also includes other important aspects or peculiarities.

57 Indexed articles with impact factor (JCR) Total number of publications in Q1: 15 Total number of citations: 264 H-index: 10 three periods of six years for research (2000-2005; 2006-2011; 2012-2017), 18 uninterrupted years) Assistant editor of the BMC Veterinary Journal (Q1; Veterinary Sciences) Invited Editor of the Animals Journal (Q1; Veterinary Sciences)
